LONE STAR MVPA

President's notes:

Looking at the membership numbers on our super website, I see we are up to 75 members, I hope this means we are doing something right! Our biggest event the Austin Veterans Day Parade is coming up and I am looking forward to being there. As you may know I got adopted by the Purple Heart guys a few years back and they think my truck is theirs from now on and that's OK. Some of you know I graduated from Travis class of 1964 and five of the Purple Heart guys were in my class! I am proud to serve these great guys who survived in an un-wanted and misunderstood war.

If you get down to the reasons our club is as going strong. It is because we have the desire and motivation to serve our country and not let the history of our military vehicles die from lack of exposure to the public. We are about teaching the kid what it means to be an American and what so many gave their lives to defend!

Those who were at the last club meeting may have noticed the shock on my face when Danny K said he wanted to be replaced. Boy did that take the wind out of my sails. But the good news is Danny said he would keep on doing his job. He also said he might like some help contacting people and getting events lined up. Danny is an example of solid member and his organization skills are vital to this club. So give Danny your support and tell him sometime what a good job he does! You members make the club happen and I want to thank you for supporting our club.

Another thing I want to thank Rory, Sam, Scott, Clint, John SS and others who support the club at events in the North Austin area. The North guys do the Cars and Coffee and other events out of reach for some of us. I also like the guys who do some of the events other pass up because you are representing the club and that's how this club will grow!

When you think you are doing a lot for the club think about JD H who came all the way from Corpus Christi to do the one day Rosanky Car show event. JD said he was going to make the Austin Veterans parade on the 11th November and stay over to do the Bastrop car show on the 12th.

You Turkeys don't eat too much Turkey this Thanksgiving day you'll get too fat to crawl under those vehicles! Salute...Madison
